

Cat Scratching Posts

Pet One Cat Scratching Posts are designed to satisfy your cat's natural scratching behaviour. Scratching Posts provides a suitable, stable place for cats to scratch, reducing the chance they will be attracted to your furniture and curtains!

Cats get great enjoyment from the sensation of scratching. Pet One Scratching Posts feature several textured materials that provide your cat with a range of feelings to enjoy. Scratching posts also give the cats a place of refuge, giving your cat the ability to relax, stretch or play.

Available in a variety of sizes and designs you are sure to find the right scratching post for your cat and home.

Notes, Hints & Tips:

- When a cat scratches they are, in part, marking their territory. Don't place the scratching post in a corner, not at first anyway. Place it in the spot where they are currently choosing to scratch. You can move it somewhere less noticeable once they are consistently using it.
- Use catnip, treats or your cats favourite toy to encourage your cat to use the scratching post.
- Put the scratching post where the cat likes to sleep. They like to have a scratch when they wake-up from a nap.
- Teach them to use a scratching post from a young age
- There should be a ratio of one scratching post per cat in the house, plus one additional.

Warnings & Disclaimers:

- May contain small parts. Ensure the scratching post is assembled correctly and all screws and bolts are tightened firmly. If product becomes damaged, discard immediately.
- Pet Use only. Keep out of reach of children. CAT POST IS NOT A CHILDS ACTIVITY SET.
- Ensure all packaging is fully removed and disposed of before allowing your cat to use the scratching post
- Supervise your pet while they are using the scratching post. Do not leave kittens unattended until they are confident in getting down from the scratching post.
