

Deluxe Drinking Fountain

Water is vital to every member of the family, including pets. The Pet One Deluxe Drinking Fountain is the perfect way to provide filtered water for your pet at all times. The feed bowl (included) attached to the fountain can be detached easily for cleaning.

The Deluxe Drinking Fountain continually circulates water to attract even the fussiest of pets, encouraging them to stay hydrated. The carbon cartridge reduces impurities in the water to improve overall palatability. The end result is clean filtered water that will help keep your pet healthy and hydrated.

Suitable for: Dogs & Cats

FEATURES & BENEFITS:

- The replaceable carbon cartridges filter out impurities, dirt, and odour which improves the water's taste and smell
- The Deluxe Drinking Fountain incorporates a pump so water does not become stagnant. Pump comes with suction cup feet to secure it in place
- Included feed bowl attached to the fountain can be detached easily for cleaning
- The swirling water effect ensures minimal splash to provide a pleasant experience for your pet.
- Manufactured from durable plastic and easy to separate and hand wash. Not dishwasher safe
- Fuss free and low maintenance option to ensure your pet receives filtered water at all times

1. Fountain cover
2. Purifying Cartridges
3. Pump
4. Impeller
5. Impeller cover
6. Pump cover
7. Water bowl
8. Food Bowl

NOTES, HINTS & TIPS:

- Providing fresh, clean water is essential. Infectious agents and diseases can be transmitted throughout contaminated water sources, and stagnant water can become ideal breeding grounds for algae and mosquito larvae. Providing fresh, circulating water lowers the risk of disease and keeps your pet happy and healthy.
- For a refreshing treat in summer time, place ice cubes in the bowl for cooler, refreshing water.
- Cats instinctively drink running water. Running water helps feline friends stay hydrated and reduces the risks of developing urinary tract infections
- To maximise the life of your pump, it is recommended that the pump casing and impeller are cleaned every 4 – 8 weeks (or earlier if flow has decreased significantly). Filter cartridges should be replaced every 4 – 6 weeks.

WARNING AND DISCLAIMERS:

- Always check water levels in the water bowl and ensure it is at optimum levels. Do not let the water go below the pump as damage may occur.
- It is important to follow the safety guidelines as set out in the instruction manual contained within the packaging of this product. This product is not intended for use by children or infirm persons without supervision. Young children should be supervised to ensure that they do not play with kit parts and components.
- Do not use the product for reasons other than the intended use. The use of attachments that are not recommended or sold to the manufacturer may cause the product to be unsafe. This is not recommended.
- This device cannot replace the daily care your pet requires and requires regular refilling. The Deluxe Drinking Fountain is not a 'holiday' waterer.
